# UIA2014 PROVISIONAL PROGRAMME

Durban, as a city and as a well-connected city-region, has both significant infrastructure nodes and agents that operate within and through the city. Through the PROGRAMME the Congress will engage with, and celebrate, the city of Durban through its three themes: Resilience, Ecology and Values.

The programme is evolving and subject to change, with many more speakers to be announced soon. All the speakers/panelists listed below are confirmed

# HEALTHCARE OTHERWHERE STUDENT COMPETITION

Enter the 'Healthcare Otherwhere' Student Competition & **WIN A TRIP TO DURBAN FOR THE UIA2014 DURBAN CONGRESS**

Healthcare services are usually associated with hospitals and clinics, but health issues go beyond what happens in institutional settings and are deeply impacted by urban and building design.

Disease prevention, health promotion and caring can be embedded in the very building fabric. In keeping with the main UIA Congress theme of RESILIENCE, ECOLOGY and VALUES, the UIA Public Health Group invites you to participate in an ideas competition, called HEALTHCARE OTHERWHERE. This calls for architectural interventions along the roads surrounding the bustling inner-city hub of Warwick Junction which are aimed at promoting health and well-being and averting disease. Intrigued?

Visit [www.uia2014durban.org](http://www.uia2014durban.org) to find out more about the competition and how you can register and participate in PHG activities at UIA2014 Durban. Registrations close 31st March 2014.
